EDUCATION

Bachelor of Computer Science
DHA Suffa University
2019 - 2023

HSSC Pre-Engineering
Govt. Degree College Gulzar-e-Hijri
2016 - 2018

CAIE O'Levels
Beaconhouse School System
2012 - 2014

CERTIFICATIONS

The Complete Web Development Bootcamp - Udemy

Meta Front-End Developer - Coursera
- Introduction to Frontend
- Programming with Javascript
- Version Control
- HTML and CSS in depth
- React Basics
- Advance React
- Principles of UX/UI Design
- Front-End Developer Capstone
- Coding Interview Preparation

SQL (Basics) - HackerRank

Google - Introduction to Git and GitHub - Coursera

Google - Agile Project Management - Coursera

AWS - AWS Cloud Technical Essentials - Coursera

SKILLS

React ExpressJS Nodejs MongoDB
MYSQL NextJS Tailwind CSS Git
HTML Javascript TypeScript CSS
Redux Rest APIs Flutter Dart

INTRODUCTION

I am a highly motivated and skilled software developer with a strong background in web development. My expertise lies in building dynamic and responsive web applications using a variety of technologies. I excel in creating reusable React components, integrating APIs for dynamic content, and using MongoDB as a backend database for robust data management. I am passionate about software development and always eager to learn and adapt to new challenges.

WORK EXPERIENCE

Nov 2023 - Dec 2023
The Disrupt Labs | Karachi
Software Developer Intern
- Developing frontend for computer vision and AI applications
- Integrated REST APIs to fetch data and display in widgets
- Created hybrid and responsive application for web, mobile and desktop
- Generated PDF reports using flutter packages

Jul 2023- Sep 2023
National Engineering Corporation | Karachi
Software Engineering Intern
- Developed dynamic and responsive web application using Next.js
- Created reusable React components
- Integrated APIs to fetch and display dynamic content within Next.js applications
- Integrated MongoDB as the backend database for storing and retrieving application data
- Documentation

PROJECTS

Safety Equipment Monitoring App
Developed a frontend for an AI application on desktop using flutter. It was a safety equipment detection and monitoring application.
Tools : Dart, Flutter, Dart Packages
https://portfolio-syedshehmeer.vercel.app/safety_equipment_detection.jpeg

Ecommerce Web App
Built a frontend of the ecommerce application from scratch, based on a popular Middle Eastern web application.
Tools : React, Express, NodeJS, Redux toolkit, MongoDB, CSS, MUI
https://noon-r7qk.onrender.com

FYP Project
Built a platform for booking paid virtual meetups with notable personalities. Featuring secure payments, real-time video calls, and a streamlined booking system, the application offers a seamless and engaging user experience.
Tools : React, Express, NodeJS, MongoDB, SocketIO, PeerJS, Stripe
